This FREE set contains 12 bingo boards; two for each vocalic /r/ [ar, air, ear, er, ire, and or].

These bingo boards are designed for carryover practice, since they contain initial, medial and final word positions of each phoneme. The boards should be used once proficiency is attained for each allophone of the target phoneme.

All the words are taken from *The Entire World of R™ Say & Sequence Playing Card System*. Mix up the cards. Designate one person to draw card and call cards one at a time. Use tokens (chips, coins, raisins) to mark matches on each board. The first player to get 5 in a row, says BINGO! and wins.

Encourage saying the target words as many times as possible. Suggested ideas include, requiring players to say the called word aloud, making a sentence or question with the called word, or saying the word three times prior to placing a token on the board.

For more practice boards visit our 99¢ Store. There are more boards available for carryover and allophone specific (sound and word position).

For more information on /r/ remediation see *The Entire World of R™ Book of Elicitation Techniques*.
